Final Exam | 50% | June 28th | [http://students.ubc.ca/enrolment/exams/exam-schedule](http://students.ubc.ca/enrolment/exams/exam-schedule)

Note that, according to the math department policy, a student must score at least 40% on the final exam to pass the course, regardless of the grade computed by the normal calculation.

**Academic Misconduct**

- UBC takes cheating incidents very seriously. After due investigation, students found guilty of Academic Misconduct often results in a one-year suspension from the University and a notation of academic discipline on the student's record.

- While students are encouraged to study together, they should be aware that blatant copying of another student's work is a serious breach of academic integrity. Please discuss with your instructors their expectations for acceptable collaboration on any assigned coursework. Cases of suspected cheating will be investigated thoroughly.

- Note that academic misconduct includes misrepresenting a medical excuse or other personal situation for the purposes of postponing an examination or quiz or otherwise obtaining an academic concession.
