MATH 318: Midterm Survey

What do you enjoy the most about the course and/or the teaching of it?

What do you enjoy the least about the course and/or the teaching of it?

Do you have suggestions to improve the course and/or the teaching of it?

Do you find the assignments relevant/interesting/challenging? Why or why not?

Is the pace of the lectures too fast/too slow/about right?

Any other comments?
