My lab session was on
Lab problems provide useful practice for solving problems on tests

Lab problems help understand the course material
Lab sessions are a waste of time
Material used in the labs is useful in other courses
I am likely to use MATLAB in the future
The lab handouts are clear and easy to follow
There should be more information on the lab handouts
There is not enough time to complete the labs
Lab problems are challenging
Lab problems are interesting
The TA provides useful help during lab sessions
I'm often confused regarding the goals of the lab
Pre-labs provide useful information and practice for the upcoming lab.
I read the lab handout carefully before the lab session
I started the lab problems before the lab session
I prefer to work on the labs with a partner or in small groups.
I would get help on the lab from students who had already completed the work
The MATLAB module in Mech 220 was a useful review
The MATLAB module in Mech 220 was a useful review
