Quiz 6

• Quiz 6 will be held in class on **Friday, April 1**.

• The “Quizzes” section of the course web page, which is
  
  index.shtml?quizzes

gives info about
  o the material covered
  o the format of the quiz
  o the rules

• Quiz 6 covers the material of weeks 10,11 — §3.3.3, §3.3.4, §3.3.5, §3.4 and §3.5.1 of the course notes (comparison tests, alternating series, ratio test, absolute convergence and the beginning of power series — radius and interval of convergence). See the “Syllabus” section of the course web page, which is
  
  index.shtml?syllabus

• You must write the quiz in **your own section** (the one you are officially registered in), unless you have explicit prior permission from your instructor.

• You must bring your **student ID** to each quiz and be prepared to show it to the invigilators.

• Quizzes are **completely closed book** — no notes, calculators, phones etc.

• There are no makeup quizzes. See the “Missed assessment” section of the course web page, which is
  
  index.shtml?missed
