MATH 121–Honours Integral Calculus

Section 201 - MTWF 2-3 in Math Annex 1100 (MWF) and Math 104 (T).

Instructor: E. Perkins
email: perkins@math.ubc.ca (only if other methods of contact are not possible)
Course webpage: http://www.math.ubc.ca/~perkins/teaching.html
Office Hours: TBA

Course Outline
The course will be based on topics from chapters 5-9 of the text.
1. Integration (Ch. 5) (3 weeks)
2. Techniques of Integration (Ch. 6: 6.1-6.3, 6.5-6.7) (2.5 weeks)
3. Applications of Integration (Ch. 7: 7.1-7.6, 7.9) (2.5 weeks)
4. Conics, Parametric Curves and Polar Curves (Sec. 8.5, 8.6) (1 week)
5. Sequences, Series and Power Series (Ch. 9: 9.1-9.7, 4.10, 6.8) (3 weeks)

Grading Scheme
Weekly Assignments: 10
Two Tests scheduled for Wed. Feb. 12 and Wed. March 12 : 40
Final exam: 50

Weekly homeworks will be assigned and collected on Wednesday. No lates.

About the Course
Math 121 in an honours version of Math 101, covering mostly the same topics but in
greater foundational depth and with more emphasis on harder and/or theoretical exercises.
Precise definitions and statements of theorems will be given. The final exam will have a
significant overlap with the Math 101 exam. This will be used to normalize the final course
grades in Math 121.

The prerequisite for Math 121 is a grade of 68% in Math 120 or 80% in Math 100,
102, 104, 180 or 184.

Policy on missed assignments and tests.
Students who are unable to hand in a homework due to a medical or equivalent excuse
will have that hw not count towards their final grade.

Missing a test normally results in a mark of zero. Exceptions are granted only with
prior consent of the instructor or due to a medical emergency. In the latter case, the
instructor must be notified within two working days of the missed test and presented with
a doctor’s note immediately upon the students return to UBC. If an exception is granted
for a missed test, the final exam will be used to make up that portion of the grade.
