This homework will not be graded, and thus does not count towards anything. You should still complete it, and hand it in the beginning of class on Monday, September 9.

Your full name: ____________________

Preferred name in class: ____________________

Your favourite colour: ____________________

Mathematical skills: Briefly write down mathematical skills that you feel comfortable with. This could be “adding fractions” or “graphing a function” or as broad as “trigonometry” or whatever comes to your mind.

Difficult topics: What do you find most challenging in math? This could be as broad as “trigonometry” or “geometry”, or as specific as “simplifying algebraic expressions”, or “factoring” or whatever comes to your mind.

Everyone is special. Write something interesting about yourself.
